

FIDEL CASTRO

Full Stack Developer · Logistics & Tracking Systems · Digital Marketing Specialist

okanga.fidel@gmail.com · +254 114 096 574 · Nairobi, Kenya · castro.mabcaslabs.com

PROFESSIONAL SUMMARY

Passionate Full Stack Developer with hands-on experience building real-world systems including cargo and logistics tracking platforms. Skilled in React, Node.js, and API integrations with practical exposure to GPS tracking systems, WebSocket-based real-time updates, IoT device data handling, and PDF report generation. Also experienced in building scalable e-commerce platforms and delivering targeted digital marketing campaigns. Focused on delivering performant, user-friendly solutions that drive measurable business outcomes.

CORE SKILLS

Frontend	React · Next.js · TypeScript · Dart · Flutter · Framer · Material UI
Backend	NestJS · Node.js · Java · Firebase · GraphQL · REST APIs · PostgreSQL · MongoDB · BullMQ
Tracking & IoT	GPS Tracking Systems · WebSockets · Teltonika Devices · Reverse Geocoding · Real-time Data Mapping · PDF Report Generation
E-commerce & CMS	WordPress · WooCommerce · Shopify · Framer · Squarespace
Cloud & DevOps	AWS (Lambda, RDS, VPC) · Cloudflare · Docker · CI/CD · Linux · Git
Marketing & Growth	Email Marketing · Newsletter Campaigns · SEO Optimisation · Digital Marketing
Other	Technical Writing · API Development · UI/UX Design · Client Management

PROFESSIONAL EXPERIENCE

Full Stack Developer & Digital Marketing Specialist

CB Consulting & Media Group
Sep 2025 – Present · Nairobi, Kenya · On-site

- Design, develop, and maintain responsive websites and web applications aligned with brand guidelines.
- Develop and manage front-end and back-end functionalities including UI/UX, databases, APIs, and server-side logic.
- Provide ongoing website maintenance and digital marketing newsletter campaigns for clients on WordPress & WooCommerce.
- Optimise websites for speed, SEO, performance, and mobile responsiveness across all platforms.
- Ensure website security, regular updates, and proper backup procedures.

Senior Frontend Developer

Organic Bloom (Contract)
Oct 2025 – Dec 2025 · 3 months · Nairobi, Kenya · Remote

- Led design and development of the Next.js storefront UI, delivering a fast, responsive, conversion-focused experience.
- Collaborated with backend engineers to integrate NestJS services for product discovery, checkout, and fulfillment.
- Built key customer-facing flows: product browsing, cart, checkout, and order tracking.
- Improved Core Web Vitals through image optimisation, code splitting, lazy loading, and performance UI patterns.
- Contributed to authentication and role-based access flows across shopper, support, and admin interfaces.

Frontend Developer — Cargo Tracking System

Logistics & Transport Sector (Contract)

Oct 2024 — Mar 2025 · 6 months · Nairobi, Kenya · Remote

- Developed a national cargo tracking system frontend using React and Material UI, covering the full logistics lifecycle.
- Built comprehensive modules: driver management, cargo carrier management, real-time cargo tracking, and journey management.
- Implemented real-time GPS location updates via WebSockets for live container and cargo monitoring across routes.
- Integrated RESTful APIs and ensured seamless data flow between frontend and backend services.
- Built dynamic data mapping and full CRUD functionality across all system modules.
- Implemented PDF journey report generation, allowing admins to download detailed journey logs for record-keeping and auditing.
- Optimised application performance and responsiveness across devices for field and office use.

React · Material UI · WebSockets · REST APIs · GPS Tracking · PDF Reports · Logistics

Software Engineering Trainee

Power Learn Project

Aug 2024 — Dec 2024 · 5 months · Nairobi, Kenya · On-site

- Completed intensive training in web development (HTML, CSS, responsive design), Python, Django, and JavaScript.
- Advanced to specialised mobile development with Dart and Flutter for cross-platform applications.
- Studied data structures, algorithms, and software engineering fundamentals.

HTML · CSS · Python · Django · JavaScript · Dart · Flutter

KEY PROJECTS

National Cargo Tracking System <https://ects.keshiholdings.com/>

End-to-end cargo tracking platform with real-time GPS monitoring via WebSockets, driver/carrier/journey management modules, dynamic data mapping, full CRUD functionality, and downloadable PDF journey reports for audit and record-keeping.

React · Material UI · WebSockets · REST APIs · GPS Tracking · PDF Reports · Logistics

Organic Bloom <https://organicbloom.co.ke/>

Full-featured e-commerce platform with M-Pesa STK Push payments, order tracking, and inventory management.

Next.js · NestJS · M-Pesa · PostgreSQL

Jay-B Fitness & Performance <https://jay-b-fitness.vercel.app>

Full-stack fitness platform with personalized training, M-Pesa subscription payments, and fitness merchandise e-commerce.

React · Node.js · M-Pesa · E-commerce

Milliden Gardens Resort <https://milliden-gardens-makeover.vercel.app>

Modern resort booking platform with automated email notifications to admin and customers on reservation.

Web Development · Booking System · Email Integration

Avya Beauty Salon <https://avyabeauty.com>

Beauty and wellness booking platform with online appointment management and service browsing.

WordPress · Booking System · UI/UX

CB Media Group <https://cbmediagroup.ae/>

Framer website for a creative media and consulting agency based in the UAE.

Framer · Web Design · UI/UX

Grounded Kenya — Maintenance & Marketing <https://grounded.co.ke/>

WordPress & WooCommerce maintenance and email newsletter management for an organic lifestyle brand.

WordPress · WooCommerce · Email Marketing · SEO

Canvas Cosmetic — Maintenance & Marketing <https://www.canvascosmetic.com/>

Ongoing maintenance and targeted marketing newsletters for a beauty and cosmetics e-commerce brand.

WordPress · WooCommerce · Email Marketing

Portfolio Terminal <https://castro.mabcaslabs.com>

Interactive terminal-style portfolio with GUI and CLI modes, animated transitions, and SSH-style navigation.

React · TypeScript · Animation

EDUCATION

Bachelor's Degree, Information Communication Technology

KCA University, Nairobi, Kenya

2021 – 2025 (Expected)

CERTIFICATIONS

AWS Database Migration Service — Amazon Web Services (AWS) · May 2025

Configuring and Deploying VPCs with Multiple Subnets — Amazon Web Services (AWS) · May 2025

Graph Developer – Associate — Apollo GraphQL · Feb 2025

Google Cloud Skills Badges — Google Cloud Skills Boost · 2024

AWS re/Start Graduate — Amazon Web Services (AWS) · Aug 2024

HONOURS & COMMUNITY

GDSC Core Team Member (Android) – KCA University · Jul 2024

As Android Lead at GDSC, fostered a vibrant community of student developers, led Android development workshops, and contributed to open-source projects.
